

## Podešavanje VPN konekcije za MagNet ISP – Windows XP

### ► Korak 1

Otvorite “Control Panel”, pa zatim stavku “Network Connections”.  
Zatim kliknite na “Create a new connection” u levom delu otvorenog prozora.

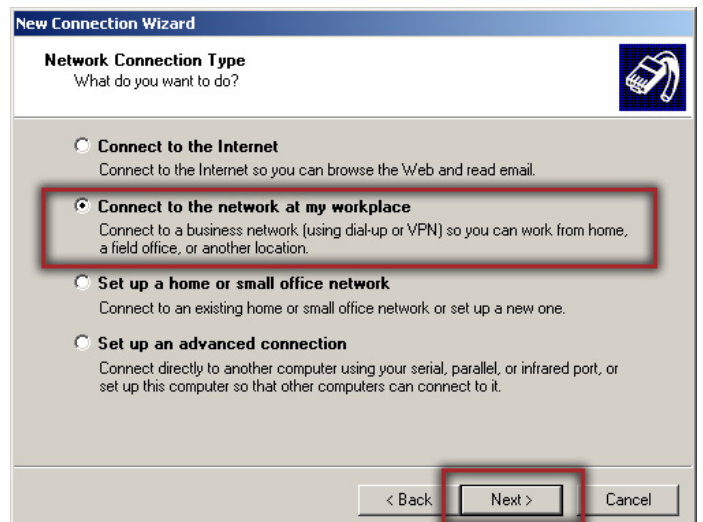

### ► Korak 2

Na otvorenom dijalogu kliknite na dugme “Next”.

### ► Korak 3

Izaberite stavku “Connect to the network at my workplace” i kliknite na dugme “Next”.

#### ► Korak 4

Izaberite stavku “**Virtual Private Network connection**” i kliknite na dugme “**Next**”.

The screenshot shows the 'New Connection Wizard' dialog box with the title bar 'New Connection Wizard'. Below the title bar, the text reads 'Network Connection' and 'How do you want to connect to the network at your workplace?'. There is a modem icon in the top right corner. The main area contains the text 'Create the following connection:' followed by two radio button options. The first option is 'Dial-up connection' with the description 'Connect using a modem and a regular phone line or an Integrated Services Digital Network (ISDN) phone line.' The second option is 'Virtual Private Network connection' with the description 'Connect to the network using a virtual private network (VPN) connection over the Internet.' This second option is selected and highlighted with a red rectangular box. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'. The 'Next >' button is highlighted with a red rectangular box.

#### ► Korak 5

Na narednom dijalogu unesite “**MagNet ISP**” ili bilo koje ime koje će Vas jasno asociirati da se radi o pristupu na internet mrežu. Kliknite na dugme “**Next**”.

The screenshot shows the 'New Connection Wizard' dialog box with the title bar 'New Connection Wizard'. Below the title bar, the text reads 'Connection Name' and 'Specify a name for this connection to your workplace.' There is a modem icon in the top right corner. The main area contains the text 'Type a name for this connection in the following box.' followed by a text input field labeled 'Company Name'. The input field contains the text 'MagNet ISP' and is highlighted with a red rectangular box. Below the input field, there is a note: 'For example, you could type the name of your workplace or the name of a server you will connect to.' At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'. The 'Next >' button is highlighted with a red rectangular box.

#### ► Korak 6

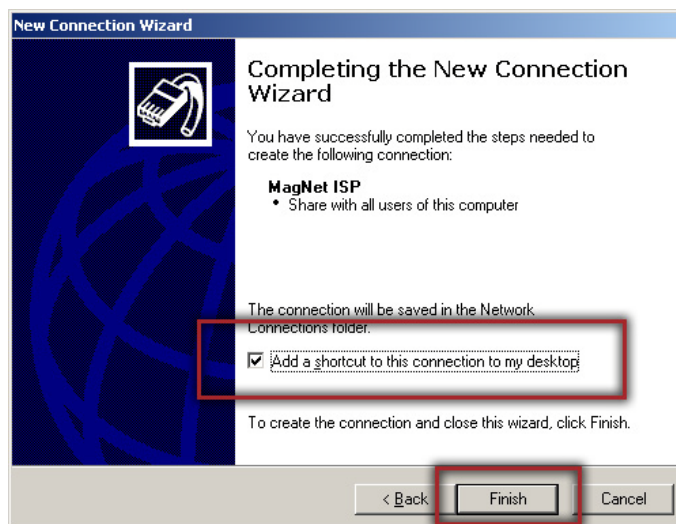

Zatim unesite sledeći niz brojeva sa tačkama, i to na identičan način – **10.113.0.2** i kliknite na dugme “**Next**”

The screenshot shows the 'New Connection Wizard' dialog box with the title bar 'New Connection Wizard'. Below the title bar, the text reads 'VPN Server Selection' and 'What is the name or address of the VPN server?'. There is a modem icon in the top right corner. The main area contains the text 'Type the host name or Internet Protocol (IP) address of the computer to which you are connecting.' followed by a text input field labeled 'Host name or IP address (for example, microsoft.com or 157.54.0.1)'. The input field contains the text '10.113.0.2' and is highlighted with a red rectangular box. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'. The 'Next >' button is highlighted with a red rectangular box.

## ► Korak 7

Na narednom dijalogu uključite stavku „**Add a shortcut to this connection to my desktop**“ i tako će te dobiti prečicu za konekciju na radnoj površini.

Kliknite na dugme „**Finish**“.

## ► Korak 8

Sa radne površine duplim klikom pokrenite prečicu ispod koje piše „**MagNet ISP**“ (ili će pisati ime koje ste odabrali u koraku 5 )

## ► Korak 9

Pod stavkom „**User name**“ unesite korisničko ime pod kojim se vodite na MagNet mreži.

Pod stavkom „**Password**“ unesite šifru koju ste odabrali prilikom otvaranja MagNet naloga.

Uključite opciju „**Save this user name and password for the following users:**“ ako ne želite da svaki put unosite korisničke podatke.

Kliknite na dugme „**Connect**“ i bićete povezani na MagNet ISP.
